Visual Artist

Profile

My artistic practice brings together techniques often seen as opposites—digital and analog, new and old. At the core is an open, process-led approach: I learn by doing, share what I learn, and use form, concept and material in unconventional ways that let the work lead the way.

Work experience

VV-machine

Entrepreneur: Digital visual art, recycled art, ecological art, festival installations, art education, graphic design, coding, and animation, 07/2014 – Present

Various art projects in Australia, China, Cambodia, Spain, Poland, and Finland, focusing on digital art, recycled art, and festival installations.
